A MESSAGE FROM OUR CEO

Dear esteemed partners and visitors,

It's a privilege to welcome you to Arab Health 2025 and to introduce you to NephroCan. Our mission goes beyond innovation—it's about creating meaningful change in the lives of patients and the people who care for them.

Our commitment to excellence is reflected in every product we develop. From high-performance dialysis machines to a comprehensive range of consumables, each offering is designed with patients, caregivers, and healthcare professionals in mind. At the core of our work is a deep understanding of the challenges faced in renal care and a relentless drive to address them with precision and dedication.

I encourage you to explore our product range, connect with the NephroCan team, and discover how we can collaborate to rethink hemodialysis and make a lasting impact.

Thank you for being part of this journey.

DELARAM HAJIPOUR

Chief Executive Officer

CANADIAN LEADER IN HEMODIALYSIS

Canadian company
headquartered in
Vancouver, BC

DISPOSABLES

Nephro Filter™

Single-use hemodialyzer filters in polysulfone and polyethersulfone, NephroCan's high- and low-flux filters (1.0m²–2.0m²) are compatible with all standard machines. Sterilization methods include Gamma Irradiation (R) or Ethylene Oxide Gas (ETO).

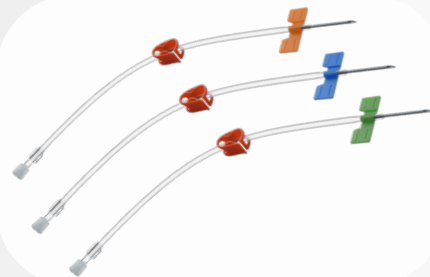

Nephro Cart™

Designed for universal on-line preparation of liquid bicarbonate, ensuring safe and effective hemodialysis. Equipped with external caps for added protection and hygienic disposal after treatment.

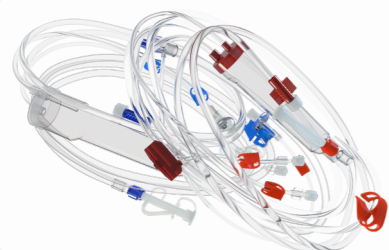

Nephro Bag™

Created for on-line preparation of liquid bicarbonate with select machines, ensuring safe and effective hemodialysis. Designed to expand access for patients globally.

Nephro Needle™

Crafted for patient comfort, NephroCan's needles ensure precise, gentle, and secure vascular access, prioritizing quality, safety, and infection prevention.

Nephro Line™

Versatile bloodlines, compatible with all machines and designed for optimal clinical performance, patient treatment flexibility, and ease of use for medical professionals.

MACHINERY & EQUIPMENT

Nephro CRO™

With its sleek and transportable design, this modular central reverse osmosis machine is capable of increasing purified water capacity onsite.

Nephro PRO™

With a stylish, compact design, this mobile Reverse Osmosis Machine feeds up to two hemodialysis machines simultaneously.

Nephro HDM™

Hemodialysis machine for kidney replacement therapy, featuring a single pump to support conventional hemodialysis treatments.

Nephro HDF™

Hemodialysis machine for kidney replacement therapy, equipped with dual or triple pumps for advanced hemodiafiltration.

Nephro Chair™

Engineered for exceptional patient comfort, this fully customizable chair is tailored specifically for hemodialysis treatments.

Nephro HDX™

Coming soon:

A portable hemodialysis machine designed for "plug-and-play" convenience, ideal for small centers and home dialysis.
